This PowerPoint report, presented by the Robert Hartwig, president of the Insurance Information Institute, at the New York Society of Securities Analysts Annual Insurance Industry Conference, provides an overview and outlook for the property/casualty insurance industry for 2014 and beyond. The presentation reports that modest growth of about 4 percent is expected to continue into 2014 in both commercial and personal lines. The report also discusses return on equity growth; economic growth; large-scale, untapped reservoirs of risk; and the tapering of prior-year reserve releases.
