This PowerPoint report by Robert Hartwig, president of the Insurance Information Institute, reviews the insurance issues relating to the Deepwater Horizon Oil Rig Loss. Slides show the types of coverage that might apply and the number of parties that might be involved. The liability factor and legal ramifications are discussed and slides explain the Oil Pollution Act and the Oil Spill Liability Trust Fund. A section deals with risk management and regulatory fallout, noting that increased federal oversight is a certainty. Another section provides information on global energy insurance markets, with a focus on key trends, capacity, insured exposure and profitability. The presentation concludes with a review of past oil spills.

Please click on the file name below to view the presentations. Once open, you can choose "file" from your menu and then save the PowerPoint presentation to your disk. The presentation also is available in Adobe Acrobat format. The Adobe Acrobat file is smaller and faster to download. However, you do need the appropriate software to view.

You can download Adobe Acrobat Reader, free of charge, from the Adobe website (<https://www.adobe.com/products/acrobat/readstep.html>).

Note: Printer fonts may vary by browser and version of Adobe Reader.
