This PowerPoint report, presented by Robert Hartwig, president of the Insurance Information Institute, at the Annual Executive Conference in New York, examines how the profitability of the P/C market is affected by the president's political party. The report goes onto to focus on Hurricane Sandy and how this storm will be one of the most expensive events in insurance history. Flood insurance reforms are also discussed along with terrorism risk insurance and the economic stagnation of Europe.

Please click on the file name below to view the presentations. Once open, you can choose "file" from your menu and then save the PowerPoint presentation to your disk. The presentation also is available in Adobe Acrobat format. The Adobe Acrobat file is smaller and faster to download. However, you do need the appropriate software to view.

You can download Adobe Acrobat Reader, free of charge, from the Adobe website (https://www.adobe.com/products/acrobat/readstep.html).

Note: Printer fonts may vary by browser and version of Adobe Reader.
