This PowerPoint report, presented by Steven Weisbart, chief economist of the Insurance Information Institute, at the Casualty Actuaries Special Interest Seminar in Baltimore, MD, examines the increasing number of natural disasters affecting the United States. This report gives statistics of the financial loss and cost of all types of disasters from the last decade and marks the most recent years as the costliest. The presentation gives details information on all types of disasters from last few years.

Please click on the file name below to view the presentations. Once open, you can choose "file" from your menu and then save the PowerPoint presentation to your disk. The presentation also is available in Adobe Acrobat format. The Adobe Acrobat file is smaller and faster to download. However, you do need the appropriate software to view.

You can download Adobe Acrobat Reader, free of charge, from the Adobe website (<https://www.adobe.com/products/acrobat/readstep.html>).

Note: Printer fonts may vary by browser and version of Adobe Reader.
