This presentation, given at the Midwest Actuarial Forum meeting in Chicago, Illinois, illuminates three significant trends shaping the property/casualty insurance business:

- A decline in profitability through the first three quarters of 2017, driven by higher catastrophe losses and deterioration in commercial and personal auto insurance.
- An increase in claim costs in personal and commercial auto, with both lines suffering from rising claim frequency and severity.
- The emergence of technologies that could disrupt the way insurance is underwritten.

Please click on the file name below to view the presentations. Once open, you can choose "file" from your menu and then save the PowerPoint presentation to your disk. The presentation also is available in Adobe Acrobat format. The Adobe Acrobat file is smaller and faster to download. However, you do need the appropriate software to view.

You can download Adobe Acrobat Reader, free of charge, from the Adobe website (https://www.adobe.com/products/acrobat/readstep.html).

Note: Printer fonts may vary by browser and version of Adobe Reader.
