This PowerPoint report, presented by Robert Hartwig, president of the Insurance Information Institute, offers an in-depth analysis of the workers compensation market. It focuses on the workers comp operating environment in the U.S. as a whole compared with California and discusses the state of the market in the wake of the Great Recession. The presentation also includes a summary of property/casualty insurance industry financial performance (profitability, underwriting performance and financial strength, premium growth, capital/capacity and investments). Another section provides a regulatory update, focusing on the implementation of Dodd-Frank and the status of the Federal Insurance Office. The report concludes with an update of healthcare reform and its implications for workers compensation.

Please click on the file name below to view the presentations. Once open, you can choose "file" from your menu and then save the PowerPoint presentation to your disk. The presentation also is available in Adobe Acrobat format. The Adobe Acrobat file is smaller and faster to download. However, you do need the appropriate software to view.

You can download Adobe Acrobat Reader, free of charge, from the Adobe website (<https://www.adobe.com/products/acrobat/readstep.html>).

Note: Printer fonts may vary by browser and version of Adobe Reader.
