

HURRICANE KATRINA FACT FILE

March 2010

In 2005, Hurricane Katrina generated the largest single loss in the history of insurance – \$41.1 billion and more than 1.7 million claims – across six states. This number does not include \$16.1 billion in losses from flooding insured by the National Flood Insurance Program or \$2 billion to \$3 billion of insured damages to off-shore energy facilities.

HURRICANE KATRINA INSURED LOSSES BY STATE* (\$ MILLIONS)

Louisiana accounted for 63 percent of the \$41.1 billion insured losses from Hurricane Katrina.

Mississippi accounted for one-third.
